AUTHOR INDEX TO VOLUME 41

Ahr, Wayne M. Paleoenvironment, algal structures, and fossil algae in the upper Cambrian of central Texas — 1 205

Allen, D. R. Design and operation of a triaxial, high-temperature, high-pressure compaction apparatus — 3 871

Allen, George P. Relationship between grain size parameter distribution and current patterns in the Gironde estuary (France) — 1 74

Allen, J. R. L. Mixing at turbidity current heads, and its geological implications — 1 97

Allen, J. R. L. Some techniques in experimental sedimentology — 3 695

Allen, J. R. L. Relationship of flute-cast morphology to internal sedimentary structures in turbidites; a discussion — 4 1154

Ashraf, Asaf. Continental shelf and upper slope sediments off Portuguese Guinea, Guinea, and Sierra Leone, west Africa — 1 150

Assereto, Riccardo L. Megapolygons in Ladinian limestones of Triassic of southern Alps; evidence of deformation by penecontemporaneous desiccation and cementation — 3 715

Austin, George S. Weathering of the Sioux quartzite near New Ulm, Minnesota; a reply to comment by D. M. Triplehorn — 2 604

Baldwin, Brewster. Ways of deciphering compacted sediments — 1 293

Ball, Stanton M. The Westphalia limestone of the northern midcontinent; a possible ancient storm deposit — 1 217

Bandyopadhyay, Shibdas. Pebble orientation in relation to cross-stratification; a statistical study — 2 585

Barrett, P. J. A long-axis clast fabric comparison of the Squantum "tillite," Massachusetts and the Gowganda formation, Ontario; reply — 2 608

Beck, Kevin C. Mineralogy of sediments in three Georgia estuaries — 2 497

Benson, L. V. Electron microprobe studies of magnesium distribution in carbonate cements and recrystallized skeletal grainstones from the Pleistocene of Barbados, West Indies — 4 1018

Bhargava, Jitendra K. Choice of voltage and film in radiography of thin rock slabs — 4 1141

Binda, P. L. Isotopic composition of diagenetic siderites from Cretaceous sediments in western Canada — 1 282

Bischoff, James L. Pore fluids of recent marine sediments; II, Anoxic sediments of 35° to 45°N, Gibraltar to Mid-Atlantic ridge — 4 1008

Blatt, Harvey. Durabilities of sand size schist and "volcanic" rock fragments during fluvial transport, Elk creek, Black Hills, South Dakota — 2 565

Booth, James S. The American upper Ordovician standard; XV, Clay mineralogy of insoluble residues from Cincinnatian limestones, Hamilton county, Ohio — 3 840

Bucke, David P., Jr. Clay-mineral diagenesis within interlaminated shales and sandstones — 4 971

Burrell, D. C. Clay mineral composition and geologic significance of some Beaufort sea sediments — 3 691

Buss, Barbara A. Suspended sediment increase due to Hurricane Gerda in continental shelf waters off Cape Lookout, North Carolina — 4 1121

Cameron, Barry Fossil and recent "tadpole nests"; a discussion — 1 171

Cameron, Barry. Peel preparation box — 4 1143

XUM

Cameron, Kenneth L. Durabilities of sand size schist and "volcanic" rock fragments during fluvial transport, Elk creek, Black Hills, South Dakota 2 565
Campbell, Charles V. Depositional model; upper Cretaceous Gallup beach shoreline, Ship Rock area, northwestern New Mexico 2 395
Carr, A. P. Experiments on longshore transport and sorting of pebbles; Chesil beach, England 4 1084
